“We have been very pleased with our relationship with Kingdom Press this year in the production of our 2012 Business Directory. They have done their role so well, it has required very little of our staff time. Their focus on excellence has allowed them to quickly connect with our members, and the feedback we have heard has been very positive. The added feature of the online directory, which began immediately after kickoff, has been a great plus.

I am looking forward to exploring the Christians In Business Roundtable groups as we complete distribution of the directories and evaluate our ministries for the fall.

Thank you for this ministry to our church. I rejoice in the overwhelming response from our members. We look forward to seeing God’s fingerprints showing up in the lives of our members as they discover and are blessed by each other.”
